# AC612 XUF

Product ref: AC612 XUF, AC612 XUFX

DMX controllers with 5 memories and faders

The AC612 range of controls provides simple DMX scene capture and recall functions.

AC612 XUF is a 5-memory fader playback panel with terminal connections.

AC612 XUFX has the same functionality but has XLR connections for DMX, a USB connection for firmware upgrades and programming plus a universal USB power supply.
