# HIVE

BEEHIVE

ENCLOSURE

Our revolutionary Beehive is a state-of-the-art blade style enclosure designed to house up to 16 Beeblades, making it the world's highest-density media engine.
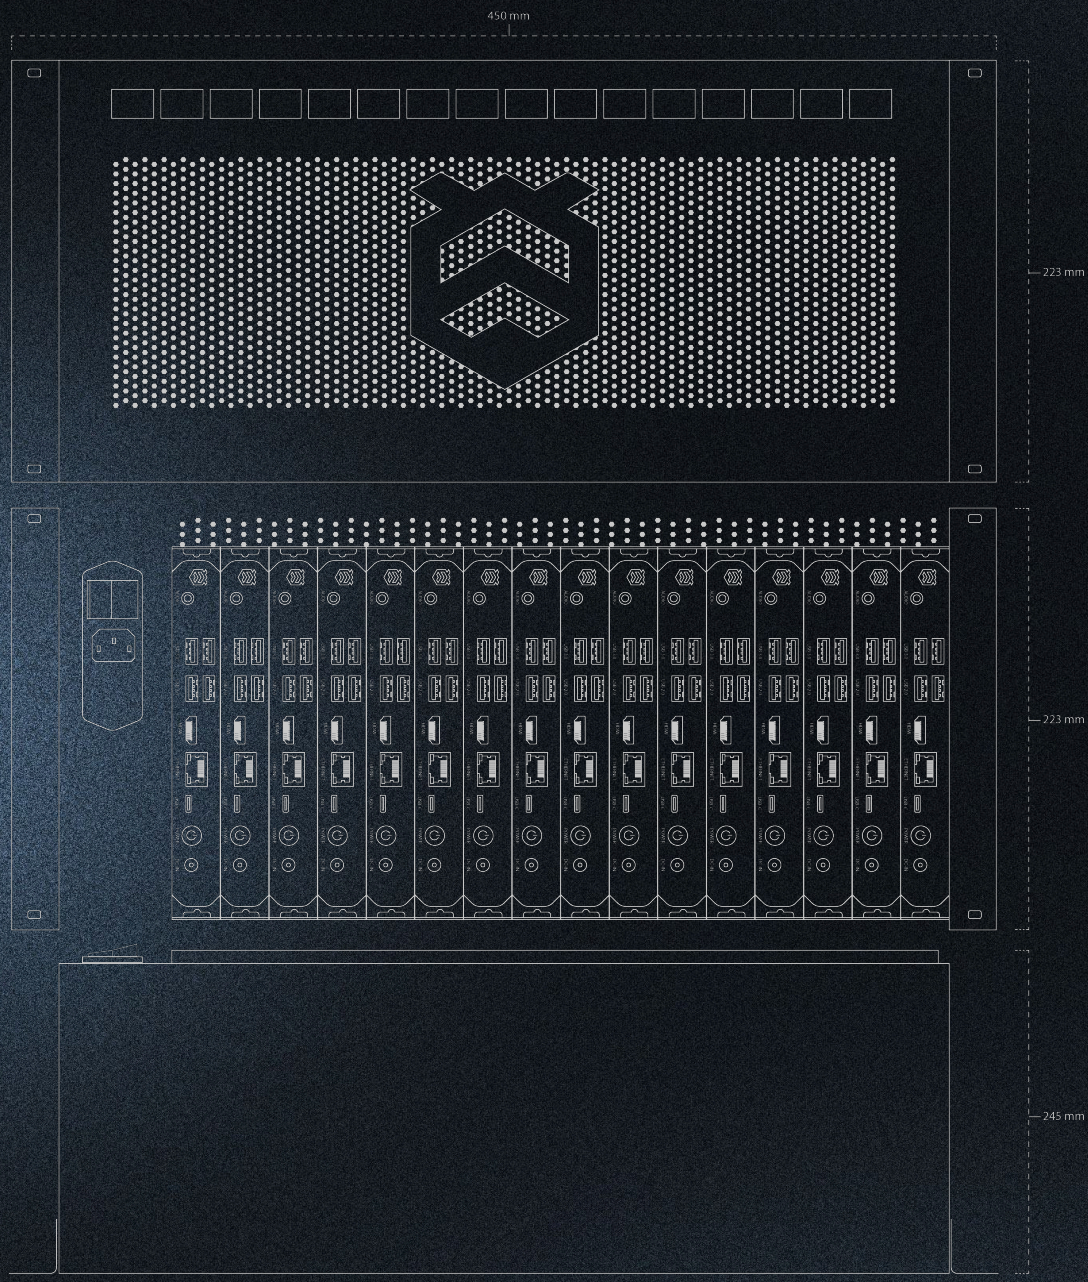

Engineered for unparalleled scalability and performance, the Beehive is the ultimate solution for professionals needing maximum output density in a compact footprint.

With support for the Minima, Osmia, Pluto, and Nexus Beeblades, the Beehive is built to handle workflows ranging from HD to 8K with seamless efficiency. Whether powering a live event or complex installation, the Beehive sets a new benchmark for high-capacity media systems, delivering exceptional reliability and versatility for even the most demanding applications.
