64010-012	PLT universal lens holder black
64010-112	PLT universal lens holder white
PLPF4ULTA	Universal tube adapter black

CLEANING AND MAINTENANCE

- 1 Remove heavy particles with compressed air prior to cleaning with cloth and/or cleaning solution.
- 2 Use a clean, soft, lint-free cloth. Recommended to have one for wet cleaning and one for drying/polishing to prevent streaking.
- 3 Always use a NON-AMMONIATED glass cleaner, isopropyl alcohol, or a mild soap and water solution.
- 4 Use caution to not continuously rub on lenses as damage may occur to coatings.
- 5 Polish with clean, dry cloth to prevent streaking.
- 6 Store lens tubes in plastic coverings to reduce dust/residue buildup.

LENS TUBES

INSTALLATION

PLT LEN TUBES

To install or remove a PLT lens tube on the luminaire:

Step 1. Click the adapter into the luminaire.

Step 2. Insert the lens tube into the adapter. After achieving the desired beam edge, tighten the locking bolt.

Step 3. To remove, perform process in reverse.

LENS TUBES

SPX LEN TUBES

Fixed beam and zoom lens tubes are interchangeable.

To remove or install an SPX lens tube on the luminaire:

Step 1. Loosen (but do not remove) move lens knob(s) towards front of lens tube assembly.

Step 2. Lift lens tube assembly up and away from light engine assembly.

Step 3. To install, perform process in reverse.

LENS TUBES

FOCUS

To focus the lens tube:

- Step 1. Loosen the locking bolt located on one side of the adapter. Slide the lens tube forward or backward to achieve the desired beam edge.

- Step 2. Once the luminaire is focused, tighten the locking bolt.
