

Introducing **VL6000 Beam**

Designed specifically as the market leading mid-air effects fixture, the Philips Vari-Lite VL6000 Beam sets a new standard in its class.

A large 14" front aperture – using a new exclusive Philips ellipsoid reflector array system – produces a retro style searchlight effect, with a high output tight collimated shaft of light at 6.4°, which exceeds 55,000 lumens.

Its lightweight robust construction and stylish compact design, allows the fixture to transport and install easily, while its visual effects and weather guarded design – for limited protection from rain – offer something versatile and truly spectacular for arena applications.

Product data

Features and benefits

- Static dynamic color system allows the VL6000 Beam to maintain its highest output at all times and gives the operator 18 direct colors from 3 color wheels as well as color mixing to achieve up to 55 full color combinations and endless split color effects.
- Produces a high output, tight collimated shaft of light at 6.4° and 55,000 lumens.
- The exclusive cloaked transition generator system can be used to create auto-timed fades between color combo to reduce programming time in transitioning colors.
- Aerial beam and image projection system consists of a variable iris reducing the 6.4° to near 1° beam angle, mid-air and projected images area produced via 7 interchangeable fully rotatable and indexable gobos, the edge sharpness and image appearance can be further adjusted via the dedicated focus channel.
- Cloud search mode allows the fixture to be operated without the need of a control console for stand alone applications.

Source	Philips MSR Gold FastFit
Wattage	1500W
Color temperature	6300K
Optical system	Ellipsoid reflector array
Fixture output	55,000lm
Dimming control	Mechanical 8-bit
Strobe	High performance dual blade
Beam size	6.4°
Iris	Yes
Frost	Yes
Aerial effects	7 + open
Color system	3 fixed color wheels 6 + open Color scroll
Color control	Separate wheel control parameters Mixed and split color macros channels Color cloak transition system
Control	DMX512-A / RDM, stand alone (cloud search mode)
DMX channels	23 max.
Software updates	USB upload
IP rating	IP22
Operating temperature	20-50°C non-condensing (33-122°F), 0-10°C condensing (32-50°F)
Cooling	Forced air
Pan / tilt	540° / 242°
Finish	Black
Dimensions H x W x D	660 x 605 x 600mm (25.94 x 23.80 x 24in)
Hanging centers	622mm (24.5in)
Weight	28kg (61.5lb)
Mounting positions	Any
Power	200-240VAC, 2,140W max.
Warranty	2 years
